At a Glance... Ancestry Performance Certificate

The three most important features of your animal are:

- **Performance**
- **Ancestry**
- **Identity**

With authenticated performance details and each animal's identity verified, this official ICAR compliant certificate traces each animal's ancestry, progeny and performance.
Unlike any other certificate, the Ancestry Performance Certificate has all its information continually updated each year to take account of changes to production and genetic evaluations.

• It is available to all cattle born and in herd - there's no hassle in application

• You have an authentic record of identity, ancestry and performance for all your stock
